

How many lemons are there on the tree?

How many leaves does the flower have?

Growing Lemons

Learn numbers and practice counting!

How to play

1. Put the yellow number circles on the plant pot and ask children to add the correct number of lemons to the tree.
2. Put the yellow number circles on the flower and ask children to add the correct number of leaves to the stem.
3. Try the other way around or invent a new way to play!
